Subjects

Academic nursing centers
  assessing school readiness for, 323-328
Acquired immunodeficiency syndrome (AIDS)
  intervention needs of female injecting drug users, 361-369
Administrative roles, in practice
  education for nurses in (AACN position statement), 127-129
Administrators, nurse
  ways of handling conflict, 288-297
Adolescents
  changing self-concept of pregnant and parenting, 111-118
Advance directives
  decision making for persons with dementia, 6
Advanced practice nursing
  business management preceptorship in nurse practitioner program, 150-156
  computerized data base for student clinical placements, 97-101
  education for nurses in administrative roles (AACN position statement), 127-129
  framework for, 157-164
Advocacy
  characterizations of by practicing nurses, 43-52
Affirmative action
  legal primer on, in nursing education, 234-241
Agency for Health Care Policy and Research
  current and emerging directions, 321
Air Force, *see* Military, nurses in
Ambulatory care
  differentiated levels of nursing work force demand in, 249-250
American Association of Colleges of Nursing (AACN)
  position statements
    diversity and equality of opportunity, 189-190
    education for nurses in administrative roles, 127-129
    educational mobility, 314-316
Army, *see* Military, nurses in
Autonomy
  characterizations of advocacy by practicing nurses, 43-52
  concept analysis, 102-110
    ability, capacity, and competence, 104
    critical reflection, 104
    decision making, 104
    freedom, 105
    self-control, 105
    self-governance, 103-104

Baccalaureate degree programs
  clinical postconference learning environment survey, 206-213
  entry into community-based nursing practice from, 305-313
  public's image of nursing as described to students in, 7-13
Bachelor of Science in Nursing (BSN) degree
  as entry-level requirement for professional nursing practice, 225-233
Bioethics
  legislation on, 266
Book reviews
  Baer, Fagan, and Gordon: *Abandonment of the Patient: The Impact of Profit-Driven Health Care on the Public,* 62
  Gordon: *Life Support,* 370-371
  Hall: *Nursing Ethics and Law,* 258-259
Business management
  preceptorship in nurse practitioner program, 150-156

Care
  as value in philosophies of nursing services, 92-96
Career, nursing
  connecting with service, in nursing education, 264
  historical perspective of nursing as career choice, 175-183
Caring
  public's image of nursing, 7-13
Client advocacy
  characterizations of by practicing nurses, 43-52
Clinical placements
  computerized data base for, 97-101
Clinical postconference
  development and testing learning environment survey, 206-213
Clinical practice
  changing self-concept of pregnant and parenting teens, 111-118
  decision making by expert nurses in urban community health settings, 22-33
  genetic testing, implications for, 184-188
  HIV intervention needs of female injecting drug users, 361-369
  patient visits to nurse practitioners and physician assistants, 335-343
  preparing for 21st century, 272-279
  therapeutic touch in, 254-257
Clinical teaching
  role strain of clinical nursing faculty, 329-334
Coalition
  collaboration, cooperation, and, 194
  faculty practice as partnership with a community, 267-271
Collaboration
  cooperation, coalition, and, 194
  developing a culturally competent work force, 280-287
  Homan Square Project, 344-349
  impact of interdisciplinary education in underserved areas, 144-149

Community health nursing
decision making by expert nurses in urban, 22-33
Homan Square Project, 344-349
Community nursing focus, in education
effect on nurse's initial choice of practice area, 214-219
Community resources
faculty practice as partnership with community coalition, 267-271
in nursing education partnership with Taiwan school, 69-77
Community-based education
impact of interdisciplinary, in underserved areas, 144-149
Community-based nursing practice
entry into, prospective employers' perceptions, 305-313
Computers
data base for student clinical placements, 97-101
Conceptual framework
for advanced practice nursing, 157-164
Conflict
nurse educators'/administrators' ways of handling, 288-297
Consortium
partnership for graduate nursing education, 220-224
Consultation
as opportunity or opportunism, 67
Cooperation
collaboration, coalition, and, 194
Cross-cultural nursing education
teaching international students, 34-42
Cultural blending
in U.S-Taiwan nursing education partnership, 71
Cultural competence
developing a work force with, 280-287
Cultural diversity
in nursing education, research, practice in 21st century, 272-279
Curriculum
educational focus on rural community nursing, 214-219

Data base
computerized, for student clinical placements, 97-101
Deans, *see* Nurse executives
Decision making
by expert nurses in urban community health settings, 22-33
concept analysis of autonomy, 102-110
for persons with dementia, 6
genetic testing, implications for nursing, 184-188
message of SUPPORT study, 165-174
Decision tree methodology
assessing school readiness for faculty practice arrangement, 323-328
Demand, for nurses
differentiated levels of nursing work force, 242-253
Dementia
decision making for persons with, 6
Differentiated practice
levels of nursing work force demand, 242-253
Diversity
affirmative action in nursing education, 234-241
and equality of opportunity (AACN position statement), 189-190
in nursing education, research, practice in 21st century, 272-279
Doctor of Education (EdD) degree
student perceptions of types of nurse doctorates, 14-21
Doctor of Nursing Science (DNSc) degree
student perceptions of types of nurse doctorates, 14-21
Doctor of Philosophy (PhD) degree
student perceptions of types of nurse doctorates, 14-21
Doctoral degree programs
balance between teaching, research, and service in, 197-205
philosophy of science in, 350-360
student perceptions of similarities and differences between types of, 14-21
Dying
message of SUPPORT study, 165-174

Education, nursing
affirmative action in, 234-241
business management preceptorship in nurse practitioner program, 150-156
differentiated levels of nursing work force demand, 242-253
diversity in, in the 21st century, 272-279
educational mobility (AACN position statement), 314-316
effect of rural community nursing focus on nurse's choice of practice area, 214-219
factors associated with NCLEX-RN success, 119-126
for nurses in administrative roles (AACN position statement), 127-129
in the U.K. in 2010, 265
interdisciplinary, in underserved areas, 144-149
liberal learning in, 264
outcome assessment of collegiate programs, 4
public's image of nursing as described to nursing students, 7-13
student self-assessment as learning, 135
teaching international nursing students
from Saudi Arabia, 34-42
from Taiwan, 69-77
therapeutic touch, should it be taught, 254-257
Educators, nurse, *see also* Faculty issues
and administrators' ways of handling conflict, 288-297
Employers
perceptions of prospective, on entry into community-based practice, 305-313
End-of-life care
message of SUPPORT study, 165-174
Entry into practice
BSN degree as requirement for, 225-233
Equality, of opportunity
and diversity (AACN position statement), 189-190
Ethical issues
bioethics legislation, 266
helping nurses in Tibet, 133
message of SUPPORT study, 165-174

Executives, nurse
home care nursing, needs for future, 193
increase in joint activities between service and education, 319
ties that bind, 66
Expert nurses
decision making by, in urban community health settings, 22-33

Faculty issues
balancing teaching, research, and service in doctoral education, 197-205
consultation as opportunity or opportunism, 67
practice, *see* Faculty practice
prearranged long-distance mentorship program, 78-84
role strain of clinical nursing faculty, 329-334
Faculty practice
as partnership with community coalition, 267-271
assessing school readiness for practice arrangement, 323-328
fit of, within teaching mission, 137-143
in Homan Square Project, 344-349
Female patients
intervention needs of injecting drug users, 361-369
Feminism
nurse educators'/administrators' ways of handling conflict, 288-297
Foreign students, *see* International students
Future, of nursing
diversity in nursing education, research, practice, 272-279
home care nursing needs for, 193
nursing education in U.K. in 2010, 265
possibilities for
health care, 261-262
nursing, 317-318
society, 191-192

Genetic testing
implications for professional nursing, 184-188
Governance
concept analysis of autonomy, 102-110
Graduate nursing education
Northern New Jersey Nursing Education Consortium, 220-224
Growth, professional
from prearranged long-distance mentorship program, 78-84
student perceptions of nurse doctorates, 14-21

Health care
concern for quality, 195
future possibilities, 261-262
Health care reform
engaging in the policy dialogue, 68
Hispanic population
developing a culturally competent work force to serve, 280-287
History of nursing
deconstructing and reconstructing, 136
nursing as a career choice, 175-183
preserving today's nursing history for posterity, 263
Women in military Service for America Memorial, 1-2
writing history of school of nursing, 3
Homan Square Project, 344-349
collaborative research endeavors, 348
description of current programs, 346-348
framework for, 344-345
health center, 345-346
outcome measures for, 349
Home care nursing
needs for future, 193
Hospitals
differentiated levels of nursing work force demand in, 242-253
outpatient departments, patient visits to nurse practitioners and physician assistants in, 335-343
Human immunodeficiency virus (HIV)
interventions for female injecting drug users, 361-369

Image, of nursing
public's, as described to nursing students, 7-13
Informed consent
implications of genetic testing, 184-188
Injecting drug use
interventions for female users, 361-369
Institute of Medicine
report on military nursing research, 85-91
Interdisciplinary collaboration
message of SUPPORT study, 165-174
Interdisciplinary education
impact of in underserved areas, 144-149
International nursing
academic under scrutiny in the U.K., 134
future outlook for nursing education in U.K., 265
helping nurses in Tibet, 133
nurses in National Health Service in Scotland, 5
International students
from Saudi Arabia, challenges and strategies for teaching, 34-42
from Taiwan, challenges and strategies for success, 69-77
Internships
entry into community-based nursing practice, 305-313
Intuition
decision making by expert nurses in urban community health settings, 22-33

Journal of Professional Nursing
change of shift report, 63-64
new editor of, 131-132

Knowledge development
philosophy of science in doctoral nursing education, 350-360

Leadership, nursing
in military nursing research, 85-91
personal, and strategic positioning, 320
Learning
liberal, in nursing education, 264

Learning environment
clinical postconference survey, 206-213
Legal issues
affirmative action in nursing education, 234-241
bioethics legislation, 266
decision making for persons with dementia, 6
Legislation
on bioethics, 266
Liberal learning
in nursing education, connecting career with service, 264

Management
nurse educators'/administrators ways of handling conflict, 288-297
Master's degree programs
business management preceptorship in nurse practitioner program, 150-156
education for nurses in administrative roles (AACN position statement), 127-129
Memorials
Women in Military Service for America, 1-2
Mental models
BSN degree as entry-level requirement for professional practice, 225-233
Mentoring
prearranged long-distance mentorship program, 78-84
student perceptions of nurse doctorates, 14-21
Mexican-American population
developing culturally competent work force to serve, 280-287
Military, nurses in
history made by, 1-2
nursing research by, 85-91
Mobility, educational
AACN position statement on, 314-316

National Council Licensure Examination (NCLEX-RN)
factors associated with success on, 119-126
National Guard, *see* Military, nurses in
Navy, *see* Military, nurses in
NCLEX-RN, *see* National Council Licensure Examination
Networking
student perceptions of nurse doctorates, 14-21
Northern New Jersey Nursing Education Consortium, 220-224
Nurse doctorates, *see also* Doctoral degree programs
student perceptions of different types of, 14-21
Nurse educators, *see also* Faculty issues
and administrators' ways of handling conflict, 288-297
Nurse executives
home care nursing, needs for future, 193
increase in joint activities with service and education, 319
ties that bind, 66
Nurse practitioners
business management preceptorship within program, 150-156
characteristics of patient visits to, in hospital outpatient departments, 335-343
in Homan Square Project, 344-349
Nurses
expert, decision making by, 22-33
in National Health Service in Scotland, 5
role in nurses in end-of-life care, 165-174
role of in SUPPORT study, 166-167
as communicators of patients' concerns, 168-169
as patient advocates, 169
participation in ethical decision making, 169-170
transitional process of retirement for, 53-61
Nursing
as a maturing discipline, 65
collaboration, cooperation, and coalition in, 194
future possibilities for, 317-318
health care, 261-262
society, 191-192
historical perspective of as career choice, 175-183
preparing for 21st century, 272-279
public's image of, 7-13
Nursing homes
differentiated levels of nursing work force demand in, 248-249

Outcome assessment
of collegiate nursing programs, 4
Outcomes
impact of interdisciplinary education in underserved areas, 144-149
Outpatient care
patient visits to nurse practitioners and physician assistants, 335-343

Partnerships
faculty practice with a community coalition, 267-271
Homan Square Project, 344-349
program for educating BSN students from Taiwan, 69-77
Peer-mentoring
developing and sustaining research work group with, 298-304
Personal growth
student perceptions of nurse doctorates, 14-21
Philosophies, of nursing
care as value expressed in, 92-96
Philosophy of science
in doctoral nursing education, 350-360
Physician assistants
characteristics of patient visits to, in hospital outpatient departments, 335-343
Physicians
in SUPPORT study
attitudes toward end-of-life care, 167-168
dominance of as decision makers, 168
Practice
clinical, *see* Clinical practice
differentiated levels of nursing work force demand, 242-253
diversity in, in the 21st century, 272-279
faculty, *see* Faculty practice
professional, *see* Professional practice

Preceptorship
computerized data base for student clinical placements, 97-101
in business management, in nurse practitioner program, 150-156
prearranged long-distance mentorship program, 78-84
Pregnancy
changing self-concept of pregnant and parenting teens, 111-118
Professional growth
in prearranged long-distance mentorship program, 78-84
student perceptions of nurse doctorates, 14-21
Professional practice
BSN degree as entry-level requirement for, 225-233
characterizations of advocacy by practicing nurses, 43-52
collaboration, cooperation, and coalition, 194
consultation as opportunity or opportunism, 67
implications of genetic testing for, 184-188
strategic positioning and personal leadership, 320
Protégé, faculty
prearranged long-distance mentorship program, 78-84
Public policy
concern for quality of health care, 195
directions of Agency for Health Care Policy and Research, 321
engaging in the policy dialogue, 68

Quality health care
concern for, 195

Religion
therapeutic touch as, 254-257
Research
collaborative, in Homan Square Project, 348
developing and sustaining peer-mentored research work group, 298-304
diversity in, in the 21st century, 272-279
focus of Agency for Health care Policy and Research, 321
military nursing research, 85-91
nursing as a maturing discipline, 65
student perceptions of types of nurse doctorates, 14-21
when can results be implemented clinically, 196
Research reports
care as value in philosophies of nursing service, 92-96
changing self-concept of pregnant and parenting teens, 111-118
characterizations of advocacy by practicing nurses, 43-52
clinical postconference survey, 206-213
decision making by expert nurses, 22-33
educational focus and nurse's initial choice of practice area, 214-219
factors associated with NCLEX-RN success, 119-126
historical perspective of nursing as a career choice, 175-177
patient visits to nurse practitioners and physician assistants, 335-343
public's image of nursing, 7-13
role strain of clinical nursing faculty, 329-334
student perceptions of types of nurse doctorates, 14-21
transitional process of retirement for nurses, 53-61
Retirement
transitional process of, 53-61
Risk identification
implications of genetic testing, 184-188
Role preparation
student perceptions of nurse doctorates, 14-21
Role strain
of clinical nursing faculty, 329-334
Rural areas
effects of educational focus on nurse's initial choice of practice area, 214-219
impact of interdisciplinary education on underserved, 144-149

Saudi Arabia
teaching international nursing students from, 34-42
Scholarship
faculty practice and teaching mission, 137-143
School-based health activities
in Homan Square Project, 347-348
Schools of nursing
academic partnership for graduate education, 220-224
assessing readiness of for faculty practice arrangement, 323-328
diversity and equality of opportunity (AACN position statement), 189-190
Emory University, partnership with Taiwan nursing school, 69-77
factors associated with NCLEX-RN success, 119-126
George Mason University, project with Saudi Arabia, 34-42
Rush University, partner in Homan Square Project, 344-349
therapeutic touch, should it be taught, 254-257
writing history of, 3
Science
philosophy of, in doctoral nursing education, 350-360
Scotland
nurses in National Health Service in, 5
Self-assessment
by students, as learning, 135
Self-concept
changing, of pregnant and parenting teens, 111-118
Service, *see also* Practice
connecting career with, in nursing education, 264
Sexual behavior
intervention needs of female injecting drug users, 361-369
Socialization
prearranged long-distance mentorship program, 78-84
Society
future possibilities, 191-192
Southern Council on Collegiate Education in Nursing
prearranged long-distance mentorship program, 78-84
Status, professional
concept analysis of autonomy, 102-110
Strategic positioning
and personal leadership, 320

Students, nursing
computerized data base for clinical placements, 97-101
factors associated with NCLEX-RN success, 119-126
international
from Saudi Arabia, strategies, for teaching, 34-42
from Taiwan, partnership with, U.S. school, 69-77
perceptions of types of nurse doctorates, 14-21
public's image of nursing as described to, 7-13
self-assessment as learning, 135
SUPPORT study, 165-174
Systems archetype
BSN degree as entry-level requirement for professional practice, 225-233

Taiwan
partnership program for educating BSN students from, 69-77
Teaching
clinical, role strain of faculty, 329-334
faculty practice, fit within teaching mission, 137-143
of international nursing students, 34-42
Teenagers
changing self-concept of pregnant and parenting, 111-118
Tennessee
impact of interdisciplinary education on underserved areas, 144-149
Tennessee Self-Concept Scale
pregnant and parenting teens, 111-118
Theosophy
therapeutic touch as religion, 254-257
Therapeutic touch
should nurses practice, 254-257
Tibet
helping nurses in, 133
Transition
retirement process for nurses, 53-61

Undergraduate programs
clinical postconference learning environment survey, 206-213
educational focus and nurse's initial choice of practice area, 214-219
impact of interdisciplinary on underserved areas, 144-149
United Kingdom
academic nursing under scrutiny in, 134
nurses in National Health Service in Scotland, 5
nursing education in 2010, 265
